The use of cameras (Film and Digital) and video cameras by parents/carers during school events

There will be occasions during the school year where parents/carers will wish to take photographs or make a video recording of their child/children taking part in a school activity. These activities will include school assemblies, school performances, sports days, school outings and educational visits.

It is not illegal to take photographs of children in school but photographs and video images of pupils and staff are classed as personal data under the terms of the Data Protection Act 1998. Increasingly technology is making it easier for pictures and images to be used inappropriately as printed material on the web. It is important that pictures/images of children taken by parents/carers are done so in a way that reflects the protective ethos of the school and that parents/carers are aware of their responsibilities in this matter.

Pictures/images should not be displayed on websites or on social networking sites, in publications or in a public place.

Please tick agreement box (this must be agreed in order for you to attend school events)
